

Patient Consent Form

I. DESCRIPTION OF SERVICE

Your health professional "**Health Professional**" recommended the use of the software solution "Dental Monitoring" ("**Dental Monitoring**").

Dental Monitoring is a communication tool for health professionals and their patients ("**Patients** ") that consists of a web platform for health professionals and patients ("**Dental Monitoring Web Platform**"), an application recommended for health professionals ("Dental Monitoring app") and an analysis platform of data necessary for the functioning of Dental Monitoring.

The Dental Monitoring web platform allows:

- patients to transfer photographs of their buccal cavity to their health professionals.

The Dental Monitoring app allows:

- Health professionals to take photographs of their patients' buccal cavities and send them to the Dental Monitoring web platform, and to carry out secure virtual video consultations with their patients.

We draw your attention to the fact that the Dental Monitoring web platform is not a software solution for clinical management and must be used only under the supervision of a health professional.

Information and advice delivered from within the Dental Monitoring web platform must not, under any circumstances, be a substitute for the advice or prescription from your health professional.

Consequently, you must, in all cases follow the recommendations of your health professional and discuss your treatment only with your health professional.

II. PROCESSING PERSONAL DATA

DENTAL MONITORING SAS ("**DM**") is a control for both the quality of treatment and your personal data with your health professional.

Personal data protection is at the heart of DM's business.

We therefore invite you to take the time to read our personal data protection policy, so that there is no margin for error in the following points.

- What personal data do we collect?
- Why do we process your personal data?
- How do we share your personal data?
- How long do we save your personal data?
- How do we protect your personal data?
- How can you exercise your rights?

III. CONSENT

I understand that my health professional remains solely responsible for my treatment. He/she is the only interlocutor authorized to give me medical advice. DM acts only in the role of an interface in the patient - health professional relationship.

I acknowledge that I have taken the necessary time to read and understand the personal data protection policy and the consent form.

In using the web platform Dental Monitoring, I understand that certain processed personal data are health data within the current regulations in force.

I certify that I am of legal majority age as defined by the country of residence of my health professional, or that I give my consent in the presence of and under the responsibility of my legal representative.

By clicking "accept," I consent that DM has the right to process my personal health data for the purpose of the services offered by DM, such as are shown in the policy on the protection of personal data.

Any copy of the consent form has the same value and the same authority as an original.

You may remove your consent at any time by contacting the DM representative for the protection of personal data at the following email address: privacy@dental-monitoring.com, or by mail: Dental Monitoring SAS - Personal Data Protection, 75 Rue de Tocqueville, 75017 Paris, France

Please specify the nature and details of your inquiry in your email or postal letter.

DM reserves the right to ask for supplementary information in order to verify your identity before proceeding with your request.

In case of the withdrawal of your consent, please note that the web platform Dental Monitoring can be discontinued if you object to the processing of your personal data, as is necessary for the service supplied by the web platform Dental Monitoring.
